

SHAH MOHAMMAD SAMIN ABRAR

Business Analyst | Data Analytics Professional | MBAN Candidate

Adelaide, SA, Australia | 0450 383 523 | saminabrar860@gmail.com | [LinkedIn Profile](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Analytical minded professional completing a Master of Business Analytics at Adelaide University (graduating end of 2026). Backed by a decade of leadership, stakeholder engagement and operational experience as a commissioned officer in the Bangladesh Navy. Experienced in gathering business requirements, documenting processes and translating stakeholder needs into data-driven solutions using Python, R, SQL, Power BI, SPSS and Tableau. Currently applying these skills as co-owner and managing director of a restaurant business, consulting with the business partner to define reporting requirements and delivering SQL-based tracking and Power BI dashboards against them. Seeking to bring structured requirements-gathering experience, disciplined execution and strong stakeholder-facing communication to a Business Analyst role.

KEY SKILLS

- Business Analysis: Requirements Gathering, Stakeholder Consultation, Process Documentation, Data Validation
- Programming & Querying: Python, R, SQL
- Visualization & BI: Power BI, Tableau
- Analytics: Statistical Analysis, Predictive & Visual Analytics, Business Analytics, SPSS
- Business & Domain Knowledge: Financial Accounting Fundamentals, Project Management Fundamentals, Database Management

WORK EXPERIENCE

Managing Director

Good Minute Restaurant, Barisal

Apr 2024 – Present

- Co-own and help operate a restaurant business, sharing responsibility for financial oversight and performance monitoring
- Consult with business partner to define reporting requirements, build and maintain a SQL-based expense tracking database to meet business requirements
- Identify key performance metrics through ongoing business discussions and translate them into monthly Power BI dashboards to support decision-making

Online Data Analyst (Independent Contractor)

TELUS Digital AI Community, Australia

May 2026 – Aug 2026

- Applied defined evaluation criteria to research, verify and compare data, determining relevance and accuracy against task specifications
- Contributed to enhancing the content and quality of digital maps used by millions of people worldwide, applying knowledge of Australian geography, news and current affairs
- Worked across a diverse set of task types like maps, news, audio and relevance evaluation under standard quality assurance guidelines

Lieutenant Commander (Retired) — Command, Operations and Intelligence

Bangladesh Navy

Dec 2014 – Jul 2024

Progressed from Officer Cadet to Lieutenant Commander over a 10-year career. Held roles including Executive Officer, Signal Communication Officer, Regulating Officer, OIC Field Intelligence Staff, Supply Officer and Navigating Officer across multiple ships and shore establishments.

- As OIC of Field Intelligence Staff, gathered requirements from multiple stakeholders and created data collection and analysis frameworks to support strategic security operations and enhance organizational policy
- As Regulating Officer, consulted with personnel and documented regulatory processes, applying rigorous data validation and secure record-keeping
- As Signal Communication Officer, managed telecommunication systems, cryptographic equipment and secure data transmission in high-stakes environments
- As Executive Officer, gathered requirements from department heads and supervised database management for personnel records, leveraging data analytics to optimize operations and personnel performance
- As Supply Officer, analyzed data related to resource allocation and financial transactions to improve operational efficiency
- As Navigating Officer, maintained navigation databases and developed digital logs to improve data accuracy and support operational reviews
- As Watchkeeping Officer, managed large datasets, created visual reports and inform strategic decision-making
